

<http://rdcu.be/D0Yz>

Factors affecting the hygroexpansion of paper

<http://rdcu.be/D0YH>

Review of recent achievements in self-healing conductive materials and their applications

<http://rdcu.be/D0YT>

A review of soft errors and the low  $\gamma$ -solder bumping process in 3-D packaging technology

<http://rdcu.be/D0YZ>

Surface modification of hexagonal boron nitride nanomaterials: a review

<http://rdcu.be/D0Y5>

Stabilizers for nitrate ester-based energetic materials and their mechanism of action: a state-of-the-art review

<http://rdcu.be/D0Zb>

A review on the environmental durability of intumescent coatings for steels

<http://rdcu.be/D0ZA>

Review: nanoparticles and nanostructured materials in papermaking

<http://rdcu.be/D0ZG>

Zinc oxide nanoparticles: a review of their biological synthesis, antimicrobial activity, uptake, translocation and biotransformation in plants

<http://rdcu.be/D0XB>

Biomedical applications of acrylic-based nanohydrogels

<http://rdcu.be/D0XP>

Grain growth during spark plasma and flash sintering of ceramic nanoparticles: a review

<http://rdcu.be/D0Yh>

Recent achievements on sulfide-type solid electrolytes: crystal structures and electrochemical performance

<http://rdcu.be/D5tV>

Enhancing the reactivity of aluminosilicate materials toward geopolymer synthesis

<http://rdcu.be/D5ut>

A review of slip transfer: applications of mesoscale techniques

<http://rdcu.be/D5uG>

Review: mechanical behavior of metal/ceramic interfaces in nanolayered composites—experiments and modeling

<http://rdcu.be/D5uX>

A review of computational phononics: the bulk, interfaces, and surfaces

<http://rdcu.be/D5ve>

Mesoscale models of interface mechanics in crystalline solids: a review
